Require logbook-style record keeping and reporting requirements for certain unguided anglers in Alaska. It is a widespread practice of lodges or other businesses to equip unguided anglers with boats, gear, and local knowledge, so that the unguided angler can fish without the assistance of a licensed guide. There currently is no requirement for unguided anglers to report their sport fishing effort and harvest of halibut, thus it is difficult to assess any trends in effort and harvest.

Suggested Regulatory Language

Use this section to place new or revised IPHC Regulation text. On the website is an example showing a proposed modification to the Fishing Periods (season dates), Section 8 of IPHC Regulations, to commence on 1st April and close on 1st November.
