## IPHC Fishery Regulations: minor amendments

PREPARED BY: IPHC SECRETARIAT (19 DECEMBER 2018)

---

### PURPOSE

To improve clarity and consistency in the IPHC Fishery Regulations.

### BACKGROUND

This proposal would make minor amendments to the IPHC Regulations. These revisions to the regulations would include:

- Updating and clarifying existing fishery regulations;
- Reordering regulations for clarity and emphasis.

### DISCUSSION

Periodically, regulations should be reviewed to ensure they are clear, consistent, and up to date as a whole. These revisions to the IPHC Fishery Regulations are a result of a holistic review. The primary revisions resulting from this review are described below, and will be provided to the 95<sup>th</sup> Session of the IPHC Annual Meeting (AM095) in detail:

- Updating and clarifying fishery regulations
  1. Section 1. Short title would be removed as it is no longer necessary.
  2. The current Section 4, Limits, would be re-titled Fishery Limits.
  3. Section 5, Licensing Vessels for IPHC Regulatory Area 2A, would be amended to make it clear that vessels in IPHC Regulatory Area 2A may hold both a license for directed commercial fishing AND a license for the incidental catch during the sablefish fishery.
  4. The table of commercial catch limits would be removed from the current Section 12, Commercial Catch Limits, as this information is available in the current Section 4, [*Fishery*] Limits and is therefore redundant. Section 12 would be retitled Application of Commercial Fishery Limits.
  5. Section 18, Receipt and Possession of Pacific Halibut, would be revised to make it clear that IPHC Regulatory Area 2A is included in Paragraph 6 as intended.
- Reordering fishery regulations for clarity and emphasis
  1. The sequence of sections would be revised as follows:
