

Mr. John Woodruff Biography

30 OCTOBER 2018

John Woodruff has been involved in the Pacific halibut fishery as a buyer since 1981 and has witnessed the fishery evolve from an open access with reasonable fishing times to a derby style to the limited access fishery we have today. He's been actively engaged in the IPHC process for this time and spent several years as the Processor Advisory Board chairperson as well as HANA's president. He's overseen the purchase and sale of well over 100 Mlbs. of Pacific halibut and has great respect for the participants in both the regulatory and fishery parts of the Pacific halibut business.
